BANGOR!
AN AIR-TIGHT
Cooking Stove,
With two Ovens.

INVENTED BY
J. HAGAR & CO.
OF PENNSYLVANIA.

The greatest invention of the age—the most practical and scientific production ever made This Stove has 3000 of these Stoves were sold in England, during 1848—More than 30 000 have been ordered of the Manufacturers in New England This Stove has received the highest premium from every Fair that it has been exhibited before

The Hot Blast Air-Tight
COOKING STOVE

We would call the attention of the reader to the report of the Worcester County Mechanics' Association held in the city of Worcester Sept 1848 on the "Hot Blast Air-Tight Cooking Stove, constructed by Gordon Williston, Worcester This Stove involves an entire new principle in applying heat to the baking or broiling of meats The flavor of meat cooked directly upon the coals is the result of the action of the carbon To broil upon coals in our best Stoves where fire is required is both a difficult and disagreeable operation But in this stove a steak was broiled in three minutes without any smoke or odor to come into the room It was evenly and well cooked and had all the pleasant twang of a coal fire A large oven immediately over the ordinary fire is so constructed that the whole body of heat may be made to pass through it, forming for baking a flue for the draft This arrangement secures all the qualities of a good broil or roast meats without the labor usually attendant upon such affairs It likewise has good radiating qualities with large oven and convenient arrangements for hanging furniture —[Silver Medal

PATENTS.
AMERICAN AND FOREIGN OFFICE,
Agency of the U S Patent Office, Washington,
No. 2 State Street—Boston.

The subscriber by appointment from the Commissioner of Patents, is Agent of the U S. Patent Office for receiving and forwarding to the Patent Office specimens of manufactures to be patented or deposited therein which will be sent with the necessary Papers and Drawings for Patents Caveats Specifications Assignments, &c. He will make researches into American and foreign works to test the validity of inventions, and render advice on legal and scientific matters concerning the same Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents They also have the advantage of verbally explaining their inventions and consulting in respect to them, *matters, in general, of paramount importance in order to obtain correct specifications and claims* The experience of many year's practice, an extensive collection of Patent works, decisions, &c on mechanical subjects, and Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment

Holden's Alterative and
TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach and giving strength to that organ and for removing many troubles which are often attributed to impurity of the blood

Its action is that of a mild Alterative and Tonic restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution

By its use the appetite becomes regular and good, digestion perfect clear head ache and many nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin many diseases of the latter grow out of a morbid action of the former even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine

Many troubled children, supposed to arise from worms, are caused by a deranged state of the stomach and are removed by its use Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it

It contains no poisonous ingredient and is warranted in any case do harm

Home Testimony.

We, the undersigned have ourselves or in our families used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended

John A. Sayward.—Editor

SATURDAY, JULY 7, 1849.

☞In the celebrated soliloquy where the prince of Denmark balances the uncertainties of the life to come against the constant ills of this existence, he assigns to the "law's delay, a prominent place, ranking it with the

—"Oppressor's wrong the proud man's contumely
The pangs of despised love,"

and the

—"Insolence of office and the spurns
That patient merit of the unworthy takes"

The complaint is older than the days of Shakespeare Its extent too is as great as its age, for in all civilized and cultivated countries, there is the same murmuring at the slow motion of the wheels of justice In England, a suitor especially in chancery, is sometimes as long as the life of its parties It often outlives all engaged in it, and when the judgment comes at last,it is pronounced by a strange voice over the graves of the chancellor, counsel, and plaintiff that know the cause in its infancy In France the practical result is worse still The facilities which a stubborn and wealthy party may avail himself of to make litigation a burden insupportable to his opponent there greatly abound, so that it has come to be almost a law of the land that if a poor man's rights are invaded it is far better to endure the wrong than to seek redress at the legal tribunals In Germany they are sometimes three or four years in dooming a criminal,—a particular in which we are far before them, for however slow may be the progress of business on the civil side of our Courts, the penalties imposed by offended justice visit soon enough the luckless offender In fact the only speedy paths of exit from our Courts of justice seem those that lead to the prison and the gallows There are few countries indeed where the complaint is not a general one, and these are those countries where justice is administered in a summary way which is more poetic than agreeable where a sack and the Bosphorus rewards a sultanas infidelity, and a body shorter by a head tells the tale of resistance to the decree of some high officer of the law Ali Hassoun's notion of administering justice is a fair specimen of Eastern jurisprudence An insolent neighbor seized upon the cow of a poor man who aroused the neighborhood by his cries and prayers, which however were all in vain — The oppressor killed the cow,cut her into twenty pieces, and sold them to twenty of the persons who saw the occurrence,at a ducat a piece The poor man without much hopes of redress, stated his grievances to Ali,who was the Pashaw of the district Ali without a word of discussion sent his soldiers to the wrong doer, had him cut into twenty pieces and compelled each of those who had bought of the cow to purchase at the same price,a portion of the offender — The twenty ducats so obtained were handed over to the poor man and he went his way So much for an example of summary justice

Judge whether such a vindication of invaded rights is what many people mean when they are loud for 'speedy and effectual administration of the law No thinking man will lose sight of the fact, that after all, much of the law's delay is a necessary incident of the very nature of litigation under our institutions It is no very easy matter to settle the rights of contending parties, each of whom come before the Court with a show of justice, with seeming truth, and always with a claim to a patient hearing The diversified points to be of man, the ever new and varying combinations of facts which must spring up in the exercise of a traffic and commerce, render the exact adjustment of contested claims a matter of great difficulty

We explained in the course of some remarks some days since upon the Supreme Court, that there was no delay or want of deligence on the part of that Court in despatching the business before them That is the ultimate tribunal to settle the law, they also try the most important causes which come before a jury And they succeed in clearing each year both their law and nisi prius or jury dockets. The claims for the most part lingated in that Court are large enough to support a year or eighteen months delay Cases are disposed of there, generally speaking, with a speed which satisfies all but the captious

It is in the District Court, particularly in the larger counties, as Penobscot, Cumberland, Lincoln, and probably Kennebec, that the wheels of justice move slow Our own county is the worst instance There were on the docket of last term, nineteen hundred and seventy one cases About five hundred of these were new actions, in a fifteenth or perhaps a tenth of which there will be some sort of a trial Nearly if not quite as many actions are disposed of each term as there are commenced The docket till very recently has not grown to any considerable extent, but a high number is kept up by old actions, some of which have been there ever since the great law flood of '36, 7, when the number of actions were told by thousands They stick there term after term, obstructing the flow of business, like the water logged drift stuff that has sunk in our rivers, one day to impede its navigation An action in which, perhaps, thirty dollars is at stake, is brought into the District Court and tried at the third or fourth term If there is any considerable testimony needed, the costs on either side amount to as much as the debt The parties become insolvent in the interval, and an execution with figures large enough is obtained,which is of no value to either plaintiff or attorney — Perhaps a third of the bills of cost are collected The unfortunate paying third, support the expenses of the litigation of the rest The Judge is certainly not to blame He can only do the business that is brought before him — The delay is ascribed to the lawyers, a great deal of it unjustly Who ever saw a defendant in this county who wasn't anxious to have an action continued one term longer? He would put off the evil day as long as possible To get your action tried at a given term, with a fair regard to the rights of your opponent, needs more watching and waiting than some of the actions are worth The result is that it is continued, and generally *neither party cares*

The remedy for this state of things is to clear the present docket, remorselessly and begin anew with clean books We may just as well have actions disposed of in the District Court in the first term as the fourth term If the amount claimed is large enough, let them be removed to the Supreme Court If small, let there be a trial, and have the action off the docket The change would be far more convenient, less laborious, less annoying, and more profitable both to clients and attornies The system would be better still, if a certain fee for attending to a case, how long soever it might be in court, was fixed and paid in *advance*, that those who don't pay, and never mean to pay, might not have the luxury of litigating their claims at the expense of those who are solvent.

☞The newspapers insist that the "Eudora of Baogw" was chased by pirate boats near Cape San Augustine, (fourteen degrees north of Rio) and that the foremost boat was received with a volley of twenty muskets from the schooner which capsized the boat and killed and drowned its crew There is no vessel from this port of the name above, and as far as the story relates to the Eudorus, Capt Wiggin's it is entirely a fabrication It purports to have been received at Boston by a letter from Eastport

New Post Offices.

A new Post Office has been established in Letter D Plantation (Aroostook County) called Maple Grove, and Dea Edward S Fowler appointed Postmaster

What's the use of having a Post Office and newspapers and intelligence there,if they won't let them vote in Democratic Conventions—one of the first rights of a citizen in this country is to vote

Pure Water the Best Drink.

There is no axiom of health more just than that "men never have a true appetite till they eat with relish any ordinary food It is told of John Bailes who lived to the age of 128 that his food for the most part consisted of brown bread and cheese, and his drink water and milk He had buried the town of Northampton 20 times over, excepting three or four, and it is said strong drink killed them all Water manifestly is the natural beverage of all animals, whole nations, as the Mahometans and the Hindoos, use it alone as a beverage and unlike other drink, it will not ease the appetite, but the contrary, indeed, it was observed by Hippocrates, above 2,000 years ago, that water drinkers have generally keen appetites It is a fluid that requires no digestion, for it is not necessary that it should undergo any changes, it is the natural menstruum that holds in solution both what is essential for the healthy functions of the body, and what has become a refuse, after serving its destined office and intention in the animal kingdom Water, therefore, from its congenial qualities, can never much disturb the system, and when it does, it is speedily expelled by its natural outlets the skin and kidneys It is told of Lord Heathfield, so well known for his hardy habits of military discipline and watchfulness, that his food was vegetable and his drink water, never indulging himself in animal food or wine And Sir John Sinclair, in his work on longevity, says, in his account of Mary Campbell, then aged 105,that she preferred pure water to any other drink

House's Telegraph.

Boston, June 29th 1849

To the Editor of the Whig and Courier —

Knowing that you desire to lay before your readers the various improvements which are daily being made in the different branches of mechanics and agriculture, I propose to give to them, through the columns of your paper, from time to time, descriptions of such as may chance to come in my way, and also accounts,as well as in me lies, of some of the divers sources of amusements, which it may be my good (or ill) fortune to observe, in this 'city of notions'

First of all, I purpose to give a description, in my poor way, of the lion of the day, 'House's Printing Magnetic Telegraph' I am well acquainted with the principles and modus operandi of Prof Morse's Telegraph, and I think that House's is far ahead,both of that and Mr Bain's Enclosed I send you a specimen of the printing done by it whereby you see that it prints a fair letter, perfectly legible to any one who can read the 'King's English'

The machine is contained in, and on, a box about three feet long, by two wide, and six inches deep, in the front part of which are twenty six keys like those of a piano, half of which are white and the others black with one letter of the alphabet marked on each The strip of paper to be printed upon is carried along, on its edge, directly in front of the operators, and the letters are printed on it as follows —immediately behind it there revolves a small steel wheel which I shall call the printing wheel, of about two inches in diameter,on the edge of which are cut the letters of the alphabet,not reversed,as in common printing type,but the contrary, so that, if you were to press a piece of soft paper on them you would have on the *opposite* side, a raised impression of the common letter Immediately in front of the paper, so that the paper is between it and the above mentioned printing wheel, there moves a narrow belt, covered with a composition of lamp black and oil, like the sheets of the manifold letter writer Directly below the keys before described, there runs a long cylinder, like the barrel of a music box, with twenty six pins projecting from its surface, one pin below each key, which cylinder is kept revolving by a linen band, in connection with the printing wheel Now, by pressing down any one of the keys, while the cylinder printing wheel, and ink belt are in motion, a corresponding pin on the key strikes against the pin on the cylinder, once during a revolution, and stops the cylinder and printing wheel When even a pin on the cylinder stops against the pin on any key, say the key *B*, the letter B on the printing wheel is opposite to,and almost touching the paper, and,by a little lever, at the same time the printing wheel is made to press the paper against the ink-belt, thus, you perceive,making an impression in ink on the opposite side of the paper, of the letter marked on the key pressed down The motive power for carrying the wheels and cylinder is supplied by a small machine carried by galvanism, which also compresses the air used, in connection with a small receiving magnet,something like that in Morse's Telegraph,to open and close the circuit, in writing from one place to another By pressing down the keys at one end of the line, the letters are printed, instantly, as in Morse's, at the other end, whatever is the distance, at the rate, as the operator informed me, of from 150 to 200 letters per minute

I have thus, without going too much into details, given you a general description of House's Telegraph, and hope that you and your readers will be able to form some faint idea of it therefrom It is very simple, and not at all liable to get out of order, I should judge, at which I was much astonished, as I had been told by persons interested in Morse's lines that it was very complicated and difficult to keep in order, and I now very much doubt if those (my informants) knew anything about it

This line is now working between this city and Providence, and it is intended, as the posts are all up, to open it to New York on the fourth of July,after which it will probably be extended farther east

And it please you more anon, from

Yours respectfully

E L B

The Laws of Health.

Let us learn from prize fighters In the regimen that the prize fighters submit themselves to, we may see the secret of acquiring the greatest strength and powers of endurance It is to be strictly temperate in all things, to avoid all debilitating stimulants such as alcoholic drinks, tea, coffee, tobacco, &c, to rise early, to take abundance of exercise in the open air, to bathe often, and observe the most rigid system of cleanliness, and abstain from all licentious practices Those noted for pedestrian feats submit themselves to the same regimen If it may be done for such ignoble motives, how much easier should it be to practice the same system for the greatest of blessings,—health

Moral Lobelia.

Sometime since a sailor on one of the wharves was swearing most boisterously, when one of the Society of Friends passing along, accosted him very pleasantly and said, 'Swear away friend swear away, till thee gets all that bad stuff out of thee, for thee can never go to heaven with that bad stuff in thy heart' The sailor with a look of astonishment and shame,bowed to the honest Quaker, and retired

Jeffersonian.

"The very first acts of the administration, the nominations, have accordingly furnished something to *yelp on*, and all our subsequent acts will furnish them with fresh matter, because there is nothing against which human ingenuity will not be able to find something to say" —Thomas Jefferson to Gideon Granger, May 3rd 801

MY MOTHER'S VOICE.

My Mother's voice! I hear it now,
I feel her hand upon my brow
As when, in heartfelt joy
She raised her evening hymn of praise
And called down blessings on the days
Of her loved boy

My Mother's voice! I hear it now
Her hand is on my burning brow
As in that early hour,
When fever throbbed through all my veins,
And that kind hand first soothed my pains,
With healing power

My Mother's voice! It sounds as when
She read to me of holy men—
The Patriarchs of old;
And gazing downward in my face
She seemed each infant thought to trace,
My young eyes told

It comes—when thoughts unhallowed throng,
Woven in sweet deceptive song—
And whispers round my heart
As when, at eve, it rose on high,
I hear, and think that *she is nigh*,
And they depart

Though round my heart, all, all beside—
The voice of friendship love, had died—
That voice would linger there,
As when, soft pillowed on her breast,
Its tones first lulled my infant rest
Or rose in prayer

ARRIVAL OF THE STEAMSHIP

CANADA.

AT BOSTON.

Arrival of the Canada at Boston—Canton still closed to the British—24 hours bombardment of Rome! It holds out!—4th of July at Montreal Our flag displayed there!—Talk of annexation—The Cholera—Markets unchanged.

NEW YORK, July 6th, 1 P M

London, June 23d 11½ A M—Dates from Canton to the 25th of April have just been received The Emperor of China had refused to open the trade of Canton to the British upon the terms of the co-existing treaties It was thought the British government would insist upon its rights

Hostilities at Rome.

The Times of this morning has a letter from its correspondent dated CIVITA VECCHIA, 16th, which says that on the 13th negotiations were again attempted to be opened by Gen Oudinot, but failed in the same manner and on the same grounds as before The General then summoned the city to surrender, which summons being met by a peremptory refusal, he commenced a vigorous attack On the 14th the batteries played on the bastions twenty four hours incessantly, but no practicable breach had been effected up to the last advices from the camp

A reinforcement of troops and guns was being landed at Civita Vecchia

On the 14th the London money market opened firm

Flour, corn and cotton continue firm

MONTREAL July 5th

In various parts of the city yesterday the Stars and Stripes were given to the breeze without molestation The Loyalists are writhing under the insults they have received Serious troubles may grow out of the adoption of obnoxious measures by the government The party in favor of annexation is daily increasing in numbers under the influence of late news from England

At Philadelphia on the 5th there were twenty four cases and twelve deaths by cholera

New York Markets.

The cotton market is firm

Flour continues firm sales of 4000 bbls at $4 50 for common, and $4 62 for good straight brands

The market for corn has a downward tendency, sales are 20 000 bushels at 55 cents for white, 57 cents for mixed and 59 cents for prime yellow

The markets are otherwise unchanged

The steamer Canada arrived at Boston on the 4th about 6 P M

Asthma of Thirty Year's Standing.

Mr Seth W Fowle —

Sir—Having been afflicted for more than thirty years with the *Asthma* at times so severely as to incapacitate me from attendance to business and having adopted many medicines without any but temporary relief I purchased about three years since of Mr Edward Mann, your agent in this city several bottles of Wistar's Balsam of Wild Cherry, *from the effects of which I obtained more relief than from all the medicine I had ever taken for that distressing disorder I have by the repeated use of your valuable Balsam been more free of pressure for breath and oppression on the lungs than I anticipated and indeed conceive myself cured of the most distressing malady*

I do most cheerfully tender you this acknowledgement which you will use as your judgment dictates

SECOND SEASON
—OF—
KNIGHT & STREETER'S DANCING ACADEMY.

THE subscribers respectfully announce to their ... patrons, and the public generally, their intention of commencing their Juvenile Classes, on Saturday, July 7th, at 2½ o'clock, P. M.

In addition to our last season's list, we are prepared to introduce several new and fashionable dances, with appropriate Music.

The Minuette, Gavotte and Star Quadrilles; the German Schottisch Polka, and a variety of fancy Dances will be taught.

The German Schottisch Polka is the most fashionable of modern Dances, by the celebrated Louis Gaino Brookes, of New York. The public are assured that no pains will be spared to make the Second Season, (if possible) more acceptable than the first. Every attention will be paid to the select deportment of our pupils, and every facility afforded them, in acquiring an easy, graceful style of dancing.

A Subscription List may be found at Bugbee's Bookstore, and subscribers are particularly requested to leave their names on or before Saturday next, as the classes will then be formed, and it will be impossible to admit any to *the* classes after that time.

The Largest and Most Splendid Store in the State of Maine,
—and an ENTIRE STOCK of—
NEW GOODS!

T. G. STICKNEY would give notice to his customers and the public generally, that having greatly enlarged and remodelled the Store

No. 7 Main Street,

In such a manner as to make it altogether the largest, handsomest, and best lighted Store in the State—moved into it—he is now prepared to exhibit the *most extensive, best assorted*, and CHEAPEST STOCK of

NEW GOODS,

including CARPETINGS of every description—FEATHERS—and all kinds of BONNETS—that has ever been opened in the State. The Stock now opening I have taken unwearied pains in selecting, and as it was bought under the most favorable circumstances, at public and private sale, customers may rely on getting their goods *cheaper than they have ever had them before.* I will enumerate a few of the goods now in store, viz:—

SHAWLS,

Of every kind, amounting to 300, and many kinds at about one half of last year's prices.
All wool Cashmere from $6 to $12
Mohair, with heavy Silk Fringe, for 2.00, last year's price was 4,00.
Sewing Silk for 2,00, last year's price was 5,00
Rich Black Silk, figured and plain, for 5,00, 6,00, and 8,00.
Heavy Black Damask, cheap—and every variety of Thin Summer, from 25 cts. upwards.

RICH SILKS.

High Lustred Black for 87½, 1,00, and 1,12½, and a splendid assortment of Rich FANCY SILKS, which were purchased by me at Whitwell & Seaver's Auction Sale last Friday, at prices that will warrant my selling them astonishingly cheap

THIN DRESS GOODS.

About 200 pieces of Lawns, Berages, Tissues, and Muslins.
Handsome Lawns for 12½ cents.
Handsome Berage for 17 cts.
Some new styles of Thin Dress Goods.

COTTONS.

30,000 yds—from the finest SHIRTING for 4½ cents, to the finest SHEETING in the market for 8 cents. We have those of the following stamps: Merrimack, Dover, Waltham, Pittsfield, Lawrence, Carroll, Sea Island, Newburyport, Augusta, Bartlett. I will sell fair Sheeting for 5 cts.
Very fine and handsome for 6¼.
Bleached, 1 yard wide, for 6¼, and good yard and an eigth wide for 10 cts.

Every description of GINGHAMS,

....SUCH AS....

Plain Linen, Checked do, solid Green Checks, and all the different qualities of common, from 8 to 12½ cts

PRINTS.

It would be useless to enumerate all the different kinds and qualities of Prints. I have the richest English for 10 and 12½, and handsome, fast colors, and fine, for 6¼ cents.

LINEN HDKFS.

200 doz. good for 6¼, fine for 12½. 100 PARASOLS, heavy Turk, Satin, and Silk, at Auction Prices.

CARPETINGS,

My stock of Carpetings is the best and cheapest I have ever seen in Bangor. I have all the various kinds, such as the most splendid Tapestry at less than Boston prices—rich 3 ply—extra superfine for 75 cents—very handsome all wool for 50—Oil do, 4-4, 5-4, 6-4, and 2 yds wide, of the newest styles and best quality—warranted not to peel or break. Also, 4-4, 5 4, and 6 4 Straw and Cotton do—together with a complete assortment of STAIR RODS,—all of which will be offered at remarkably low prices

Those of my friends who will favor me with a call at my New Store, No. 17 Main Street, (seven doors from my old place, on the same side,) will find such bargains in Dry Goods as are not met with every day.

AYER'S CHERRY PECTORAL.

FOR THE CURE OF COUGHS, COLDS, HOARSENESS, BRONCHITIS, CROUP, ASTHMA, WHOOPING COUGH AND CONSUMPTION.

THE most distinguished Physicians in this and other countries before whom this preparation has been laid, have bestowed upon it unqualified praise as an article of rare excellence and one better calculated to cure all forms of Pulmonary disease than any other remedy known.

The Editor of the London Lancet says:—"We can speak with confidence of its intrinsic merit."

DR. PERKINS,

The venerable President of the Castleton Medical College, considers it "a composition of rare excellence for the cure of the most formidable type of disease in our climate—Consumption."

PROF. CLEVELAND,
Of Bowdoin College,

writes, "I have witnessed the effects of your Cherry Pectoral in my own family, and that of my friends, and it has given great satisfaction in cases of both adults and children."

VALENTINE MOTT, M. D.
Prof. of Surgery, New York City,

says:—"It gives me pleasure to certify in favor of this beautiful and truly invaluable remedy in diseases of the Lungs."

Physician Extraordinary to the Queen of Scotland, writes:—"This new Medico Chemical adds another proof that the sciences and arts are rapidly advancing in America."

THE RT. REV. LORD BISHOP OF NEWFOUNDLAND,

writes in a letter to his friend, who was fast sinking under an affection of the Lungs:—"Try the Cherry Pectoral, and if any medicine can give you relief, with the blessing of God that will."

Prepared by J. C. AYER, Chemist, Lowell, Mass., and sold by the Druggists every where. Price, 75 cts.
Sold in Bangor by G. W. LADD, and SARGENT & EMERSON, Druggists. 2sawd&w3m may 5.

PURIFY!!

A VERY celebrated disenfecting CHLORIDE for purifying the atmosphere is now manufactured fresh and good, in this city, by the subscriber.

This highly disinfecting preparation, discovered by a celebrated French chemist, is one of the best preventives against Cholera and all other diseases arising from an impure state of the atmosphere—its presence purifies the air and renders all offensive matters entirely inodorous, and it is therefore a very desirable article to throw about sink drains, privies, and all places where the atmosphere is tainted with unwholesome gases and offensive effluvia.

This article has received the high commendations and approval of Dr Geo. W. Holden, of this city.

GRAY HAIR can be restored to its original color, whether Auburn Brown or Black handy Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O M Ballard's

Permanent Liquid Hair Dye,

Of one preparation which is entirely different from all other preparations of Hair Dye now before the public Is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out and unlike other preparations, after the Hair is colored and dry, will not crock, fade, or wash out

In short, from its peculiar delicacy softness, and easy application, it is worthy the attention of all who may wish to improve the color of the Hair as it will make any shade, from a white to a jet black It is now used to an unaccountable extent by persons who have prematurely turned gray, and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble

CAUTION EXTRA.

A man by the name of *CLAPP* has engaged with a young man of the name of S. P Townsend and uses his name to put up a Sarsaparilla, which they call *Dr. Townsend's Sarsaparilla*, denominating it *GENUINE* Original etc. This Townsend is no doctor, and never was, but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend's Sarsaparilla, having on it the Old Doctors likeness, his family coat of arms, and his signature across the coat of arms

Principal Office, 102 Nassau st, New York City

DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL "TOWNSEND SARSAPARILLA."* Being poor he was compelled to limit its manufacture by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless, as those persons who had been healed of sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER.

Knowing many *years ago*, that he had by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This unto has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION is manufactured on the large scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend's it improves with age, and never changes but for the better, because it is prepared *on scientific principles by a scientific man* The highest knowledge of Chemistry and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root, it is well known to medical men contains many med cinal properties and some properties which are inert or useless and others which if retained in preparing it for use produce *fermentation* and *acid* which is injurious to the system Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation if they were not preserved by a *scientific process*, known only to those experienced in its manufacture Moreover these *volatile principles*, which fly off in vapor or as an exhalation under heat, are the very *essential medical properties* of the root, which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else, they can then strain this insipid or rapid liquid sweeten it with sour molasses and then call it SARSAPARILLA EXTRACT or SYRUP But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing curable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in this favor by men women and children We find it do up wonders in the cure of

CONSUMPTION DYSPEPSIA and *LIVER COMPLAINT* and in *RHEUMATISM SCROFULA PILES COSTIVENESS* all *CUTANEOUS ERUPTIONS PIMPLES, BLOTCHES*, and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from *indigestion*, from *acidity of the Stomach*, from unequal circulation determination of blood to the head palpitation of the heart, cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs throat and every other part

But nothing is its excellence more than hoarse seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS

It works wonders in cases of *Fluor Albus or Whites Falling of the Womb Obstructed, Suppressed or Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all the forms of *Any Disease*

By removing obstructions and regulating the general system it gives tone and strength to the whole body and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as *Spinal affection Neuralgia St Vitus Dance Swooning Epileptic Fits Convulsions &c*

It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion, relieves the bowels of torpor and constipation allays inflammation purifies the skin equalises the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness, removes all obstructions and invigorates the entire nervous system. In not this then

The medicine you pre-eminently need?

But can any of these things be said of S P Townsend's infernal rot?

This nauseous vile liquid is not to be

COMPARED WITH THE OLD DR'S

because of one GRAND FACT that the one is INCAPABLE of DECEIVING and

NEVER SPOILS,

while the other DOES, *souring fermenting*, and blowing the bottles containing it into fragments the sour, acid liquid exploding and damaging other goods Must not this horrible compound be poisonous to the system?—*What put acid into a system already diseased with acid?* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what *mischiefs* it produces Flatulence heartburn palpitation of the heart, liver complaint, diarrhea dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum Erysipelas White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours, and thus spoils all the fluids of the body, more or less What causes Rheumatism but a sour acid fluid which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell, and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P TOWNSEND,

and yet he would fain have it understood that Old Dr Jacob Townsend a *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation?

Reason forbid that we should deem in an article which would bear the most distant resemblance to S. P Townsend *article!* and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S. P Townsend's FERMENTING COMPOUND

We wish it understood, because it is the *absolute truth*, that S P Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are *heaven-wide apart, and infinitely dissimilar*, that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the person who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system and how to adapt remedies to these diseases?

It is to arrest frauds upon the unfortunate to pour balm into wounded humanity, to kindle hope in the despairing bosom, to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcendent Power to Heal.

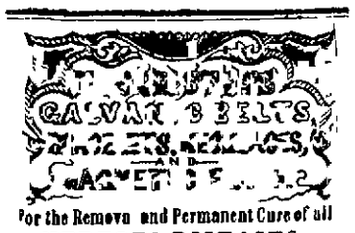
DR. CHRISTIE'S GALVANIC BELTS, RINGS, MEDALS, AND AGENTS.



For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States to be the *most valuable medicinal discovery of the Age.*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body giving tone to the various organs and invigorating the entire system Also in

FITS, CRAMP, PARALYSIS AND PALSY, Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause namely

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS Drugs and Medicines *increase the disease* for they weaken the vital energies of the already prostrated system, while under the strengthening life giving vitalizing influence of GALVANISM as applied by this beautiful and wonderful discovery the exhausted patient and weakened sufferer is restored to former health strength elasticity and vigor

The great peculiarity and excellence of

Dr Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *natural application* in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopeless sly under the infliction

They at enathen the whole system equals the exhaustion of the blow! pro ote the secretions and never the slightest ji jury to the stomach are so peculiar with the introduction in the United States only three years since more than

60,000 Persons

have now all ages classes and constitutions, who were a large number of helpless women or peculiarly subject to Nervous complaints have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else seen tried in vain

To illustrate the use of the **GALVANIC BELT**, suppose the case of a person afflicted with that fiend of civilization DYSPEPSIA or any other Chronic or Nervous Disorder In ordinary cases stimulants are taken which by their action on the nerves and muscles of the stomach afford *temporary* relief but which leave the patient in a lower state and with impaired faculties, after the action thus excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer, even in the worst symptoms of an attack and simply tie the Belt around the body using the Magnetic Fluid as directed In a short period the insensible perspiration will act on the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the negative and thence back again to the positive thus keeping up a continuous Galvanic circulation through out the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS IS OFTEN SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and exalted reputation —

SIDNEY New Jersey July 1, 1848

DR A H CHRISTIE—Dear Sir You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND MAGNETIC My reply is as follows

For about *twenty years* I had been suffering from Dyspepsia in its worst form the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever My physicians were skilful and excellent men but here their prescriptions failed About *fourteen* years since in consequence of frequent exposure to the weather in the discharge of my pastoral duties I became subject to a severe chronic Rheumatism which for *four* after year, caused me indescribable anguish In the severer paroxysms the skill of my physicians sometimes afforded me great relief, but this relief was only temporary Further in the winter of 43 and '44 in consequence of preaching a great deal in my own and various other churches in this region I was attacked by the Bronchitis which soon became so severe as to require an immediate suspension of my pastoral labors *My nervous system was now thoroughly prostrated* and as my Bronchitis became worse so also did my Dyspepsia and Rheumatic affection—thus convincing that these disorders were connected with each other through the medium of the Nervous System My sufferings were indeed severe but I had no prospect other than being entirely laid aside from the discharge of those duties and the performance of these labors in which my soul has ever found the highest of her joys.

But reasoning from effect to cause I concluded that the *Nervous System* must be reached before any hope could be indulged of my obtaining relief from these most distressing maladies In the whole pharmacopœia there seemed to be no remedial agent which could reach and recuperate my Nervous System every thing that I had tried for this purpose had completely failed At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND MAGNETIC FLUID THE MODE IN June 1846 TO MY GREAT ASTONISHMENT IN TWO DAYS BY DYSPEPSIA HAD CEASED, IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE DYSPEPTIC AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME. If time permitted I could fill a sheet of paper with the details of particulars but I can now only furnish the brief abstract My Dyspepsia has never returned, the Rheumatism once in a while visits me, but not as severely, and is easily arrested and is manifestly being driven from its hold upon my system, and my Bronchial affection is entirely cured Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections They have tried them, WITH MARVELOUS RESULTS I BELIEVE IN EVERY CASE.

I am, dear sir very respectfully yours,

ROBERT W LANDIS

Certificate from the wife of Samuel Thompson, of Bangor Maine

This is to certify that I have been afflicted with the Saltrheum, so that my hands and fingers were so sore that I was unable to dress or undress myself or nurse my babe without help I applied to a number of Physicians in this city, but obtained no relief until I applied to Dr Hale and took his medicine In six weeks it helped me so much that I was able to do my work and the medicine has improved my health generally very much

NANCY THOMPSON

Attest—ABBY W DIX

Certificate of wife of Mr Franklin Ryan, of Biddeford—This certifies that I was dangerously sick with a bad canker throughout my system and severely afflicted with the dropsy, which caused my limbs to swell in a very painful degree Physicians of the first reputation for skill attended upon me, without affording me any relief, and who pronounced mine a hopeless case At this time I availed myself of the services of Dr J S Hale, and by taking his medicines and following his directions I have been able fully to recover my health JANE F. N. H. DOWNS'

Vegetable Balsamic Elixir,

The Great Northern Remedy for Consumption!

ALSO the most effectual remedy in the world for *Colds Coughs Whooping Cough Croup Quincy Asthma, Pain in the Side or Stomach* and all diseases of the LUNGS and LIVER,

This medicine is purely vegetable, and is by the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS

Its effect upon the patient is most marked differs from that of most medicines recommended for the same complaints, in the following particulars

1st—It never irritates the organs it should cure—never dries up the cough leaving the cause touched—but first *loosens the cough, increases expectoration or spitting* then removes the cause *educating it completely* from the system rather a matter of course the *cough ceases*, and the patient is well

2d—It never produces costiveness in the constitution of the patient—on the contrary, it has a laxative effect and is a moderate cathartic We consider it the best medicine in the world to produce a case of costiveness so as to cure that in two or three weeks (the time the cure time having proper regard to diet) it entirely remove it and produce a healthy action of the bowels

3d—It does not produce a *weakness of the system* like a powerful promoter of *sensible and insensible perspiration* thus expelling by the pores of the skin those nauseous fluids and impurities of the blood the retention of which in the system is the *precursor of* DISEASE SICKNESS AND DEATH

We do not pretend that DOWNS'S ELIXIR is a specific for all the ills that flesh is heir to but we do say, and can confirm by incontestable evidence that for

CONSUMPTION,

And all all diseases of the *lungs the liver and pulmonary organs* it is *unparalleled—no equal* HUNDREDS by have been snatched from an UNTIMELY GRAVE, and hundreds who *do not long as use*, have found in the advanced stage their disease that RELIEF FROM SUFFERING which they had vainly sought from every other source

This INVALUABLE MEDICINE is *high concentrated* and put up in 2 oz and 4½ oz bottles at 25 cents and one dollar per bottle, and each is warranted to contain MORE CURATIVE VIRTUES than four bottles of any of the *usual advertised* pulmonic preparations of the day

We have received *hundreds of certificates* of wonderful cures from *every* part of the country many of which have been published *and many had gratis of any or our agents*

Sold wholesale and retail by CURTIS & SMITH General Agents ST ALBANS VT, to whom all orders for supplies of the same should be addressed (stating the best mode of sending it)—also by agents in nearly all the villages and towns of the country

It is also sold at wholesale and retail by D Bugbee G W Ladd Curtis & Perkins A P Guild, Wm Mann G McFarland Bangor; J Smith J W Curtis & Co Hampden, Chas Johnson, J B Chick, Frankfort H P Fifield Bucksport J Hooper Jr S P Hatch & Co Castine, B Nourse Geo Parcher Ellsworth; E P Butler & Co Orono, J & R Fisk, H & J Y Richardson Oldtown, Wm O Poor, Belfast Chas Macomber R T Stocomb East Thomaston
